CARE AND SAFETY GUIDELINES

The shed is intended for storage purposes only. It is not designed for habitation.

- It is strongly recommended to secure the shed to an immovable object or anchor it to the ground by drilling holes in the shed floor (at the pre-marked locations) and inserting proper screws into the ground (screws are not included).
- Do not attempt assembly on windy or cold days.
- Periodically check the shed to ensure that it is stable and that the site is level.
- Be careful when handling parts with steel edges.
- When assembling or handling the shed, use only those tools listed in the user manual.
- Avoid using a lawnmower or mechanical scythe near the shed.
- Wear safety goggles and always follow the manufacturer's instructions when using power tools.
- Wash the shed with a garden hose or a mild detergent solution. Do not use a stiff brush or abrasive cleaners, including degreasers and oil- or acetone-based cleaning materials, as these may stain or damage the shed.
- Do not store hot items, such as recently used grills and blowtorches, or volatile chemicals in the shed.
- Avoid placing heavy items against the walls, as this may cause distortion.
- Keep the roof clear of accumulated snow and leaves. Large amounts of snow on the roof can damage the shed, making it unsafe to enter.
- Wind direction is an important factor to consider when determining the location of the shed. Reduce exposure to the wind, in general, and of the door side in particular. Keep doors closed and locked when the shed is not in use to prevent wind damage.
- Do not stand on the roof.
- Consult your local authorities to check if permits are required to erect the shed.
- Install and operate any electrical appliances strictly according to the manufacturer's instructions. Use only qualified technicians and ensure proper electrical connections and safety checks.
- Do not leave electrical cables lying on the floor. Cables may cause tripping or injury. Route them safely through a cable raceway or protective cover.
- Do not stand or walk on the roof. The roof is not designed to support weight and may collapse, causing injury.
- Do not climb or hang on shelving units. Shelves are designed for storage only and may tip or collapse if used as steps.
- Do not alter the structure of the shed. Cutting or adding openings or windows may impair stability and lead to collapse.
- Inspect the floor periodically for cracks or damage. Do not step on or apply pressure to cracked areas until repaired.
- Handle glass items with care. In case of breakage, clean the area thoroughly and remove all glass fragments, including small pieces trapped in grooves or joints.
- Do not install or attach heavy loads, such as solar panels, to the roof unless specifically approved by Keter. Overloading the roof may cause collapse.
- Do not sit, lean, or climb on counters or similar surfaces. These are not intended to support body weight and may break or tip over.
- Keep the floor dry and free from mud or standing water. Wet or slippery floors increase the risk of falls and injuries.
- Always follow the assembly and safety instructions provided in the user manual.
- Keep children away from the shed during assembly and maintenance.

VEILIGHEIDS- EN GEBRUIKSRICHTLIJNEN

De schuur is uitsluitend bedoeld voor opslag en niet geschikt om in te wonen.

- Het wordt sterk aanbevolen om de schuur aan een onbeweeglijk object of aan de grond te verankeren door gaten te boren in de vloer (op de gemarkeerde plaatsen) en geschikte schroeven in de grond te bevestigen (schroeven niet inbegrepen).
- Monteer de schuur niet op winderege of koude dagen.
- Controleer regelmatig of de schuur stabiel is en of de ondergrond vlak is.
- Wees voorzichtig bij het hanteren van onderdelen met stalen randen.
- Gebruik tijdens montage of verplaatsing uitsluitend het in de handleiding vermelde gereedschap.
- Gebruik geen grasmaaier of motorzeis in de directe nabijheid van de schuur.
- Draag veiligheidsbril en volg altijd de instructies van de fabrikant bij het gebruik van elektrisch gereedschap.
- Was de schuur met een tuinslang of milde zeepoplossing. Gebruik geen harde borstels of schuurmiddelen (zoals ontvetters of schoonmaakmiddelen op basis van olie of aceton), omdat deze het oppervlak kunnen beschadigen.
- Sla geen hete voorwerpen zoals barbecue's of branders, of vluchtige chemicaliën op in de schuur.
- Plaats geen zware voorwerpen tegen de wanden, dit kan vervorming veroorzaken.
- Houd het dak vrij van sneeuw en bladeren. Een zware ophoping kan het dak beschadigen en de schuur onveilig maken.
- Houd rekening met de windrichting bij het bepalen van de locatie. Bescherm vooral de deurzijde tegen wind. Houd de deuren gesloten en vergrendeld wanneer de schuur niet in gebruik is.
- Ga niet op het dak staan.
- Informeer bij uw lokale autoriteiten of vergunningen vereist zijn.
- Installeer en gebruik elektrische apparaten uitsluitend volgens de instructies van de fabrikant. Gebruik alleen gekwalificeerde technici.
- Laat geen elektrische kabels over de vloer liggen. Deze kunnen struikelgevaar opleveren. Leid de kabels via een kabelgoot of beschermkap.
- Ga niet op het dak staan of lopen. Het dak is niet ontworpen om gewicht te dragen.
- Klim of hang niet aan planken. Ze zijn bedoeld voor opslag en kunnen omvallen.
- Verander de structuur van de schuur niet. Het maken van openingen kan instabiliteit veroorzaken.
- Controleer de vloer regelmatig op scheuren. Loop niet op beschadigde delen.
- Wees voorzichtig met glas. Verwijder bij breuk alle scherven, ook de kleine stukjes.
- Installeer geen zware lasten (zoals zonnepanelen) op het dak tenzij uitdrukkelijk goedgekeurd door Keter.
- Ga niet zitten, leunen of klimmen op werkbladen. Deze zijn niet bedoeld om gewicht te dragen.
- Houd de vloer droog en vrij van modder of stilstaand water.
- Volg altijd de montage- en veiligheidsinstructies in de handleiding.
- Houd kinderen uit de buurt tijdens montage en onderhoud.
