

# Yale Smart Indoor Camera

SV-IC-1A-V1

Version 1.0

## Quick Installation Guide

### ■ Installation Instructions

1. Download the Yale Home application from AppStore or Google Play.
2. Create an account and login to the Yale Home application.
3. Insert the USB cable in the camera and in the power adapter.
4. Insert power adapter in a power socket and wait until the camera is blinking green before you continue.
5. Select "Set up a Device" from the menu.
6. Scan the QR code on the bottom of the Yale Smart Indoor Camera.
7. Follow the in-app installation instructions.

### ■ How do I restart the Yale Smart Indoor Camera?

There are two ways to restart your Yale Smart Indoor Camera and the first option is to do it in the Yale Home application:

1. Open Yale Home application on your smartphone.
2. Go to settings tab.
3. Go into settings for the Yale Smart Indoor Camera.
4. Scroll down and choose "Restart device".

The other option is to do a hardware restart, and this is done by removing the USB cable from the camera and put it back in. This will make a full restart, compared to the other option that only restarts the software in the camera.

### ■ How do I uninstall/remove my Yale Smart Indoor Camera from Yale Home?

1. Open Yale Home application on your smartphone.
2. Go to settings tab and then into settings for the Yale Smart Indoor Camera.
3. Scroll down and choose "Remove device".
4. Wait until the camera starts blinking green in a pattern of 2 blinks, pause, 2 blinks etc.
5. If the camera does not start to blink, please follow the factory reset instructions below.

### ■ How do I factory reset my Yale Smart Indoor Camera?

1. Hold the On/Off button in the bottom of the camera for around 12 seconds, you will hear a beep when you should release the button.
2. When the camera has restarted and starts blinking green it is completely factory reset and removed from the Yale Home eco-system.
3. It is now ready to be installed again.
