La peinture en aérosol **MASTON ONE®** est la meilleure peinture en aérosol à surfaces multiples jamais conçue, qui peut transformer l'utilisateur le moins expérimenté en un professionnel de la peinture. Maston One® peut être utilisé sur presque toutes les surfaces telles que le bois, le métal, la pierre, le plastique, le verre, la céramique, les plantes sèches et le carton. Maston One® avec sa technologie de buse brevetée et son turbomoteur haute technologie mélange efficacement la peinture avec le propulseur, comme dans un pistolet de pulvérisation professionnel. Maston One® contient 20% moins de propulseurs, 25% plus de liants et 4 fois plus de pigments de couleur que les peintures en aérosol ordinaires.

Grâce à cette technologie unique, Maston One® peut couvrir incroyablement 3m² * ! La distance de pulvérisation est réduite à seulement 15 cm, ce qui signifie une expérience de peinture plus précise avec moins de poussière de pulvérisation et aucun dégât.

* surface métallique apprêtée de la même couleur
